Model cars in scale 1:87

The allure of models can be this beautiful: to scale replicas of the original turn the miniatures into filigree reflections of reality. The observer is impressed not only by the miniature proportions of the body, but also by the scaled design with the type and cylinder capacity designation as well as accurate Volkswagen logo on the rear. Moving wheels, separately inserted steering wheels and transparently crafted headlamp round off the harmony of the model. Painted in exclusive genuine Volkswagen car colours, these trinkets are a constant source of fascination. They are real eye-catchers in any prized collector's display cabinet or illustrious model railway setting.

3

Eye-catcher

The true to original alloy wheels lend each model that certain something – from sporty to elegant.

Striking face

The detailed front panel with headlamps and striking radiator grille.

A beautiful rear

Volkswagen logo, type and cylinder capacity designation round off the overall, true to original impression.

Model cars in scale 1:43

It's little wonder that the 1:43 models are so highly coveted among collectors. After all, they were practically made for building up large collections thanks to their compact dimensions. But take another look and it's clear that they also wow collectors through their extreme attention to detail. The miniature – which consists of more than 60 individual parts – includes, for example, details like the rear-view mirror in interior colour with a mirror surface made of chrome foil, moving wheels and the chrome Volkswagen logo engraving. Even the zinc die cast body is as carefully worked as the large original.

Top styling
Genuine Volkswagen rims with profiled PVC tyres.

Down to the finest detail
Miniature, pad printed number plates and body-colour wing mirrors, just like the original

Unmistakable
Be it the wipers, integrated brake lights or model and type designation – everything is just right.

Model cars in scale 1:24

The 1:24 zinc die cast miniatures, with true to original replicas of the engine, chassis and interior, are captivating due to their astounding details. Around 80 individual parts ensure the true to original Volkswagen look. But the focus is not only on the look. The steerable front wheels with genuine rims, and the doors, bonnet and boot or tailgate that can all be opened, give you a sense of the driving enjoyment that can otherwise only be experienced in the real thing.

24
—
25

Moving parts

Steerable front wheels with genuine rims in alloy effect and with profiled tyres.

Perfect in form

The striking front panel with the unmistakable look of the original.

Large opening

Doors which open easily allow you to look into the passenger compartment.

1:24

Model cars in scale 1:18

Scale 1:18 allows you to take a look at the otherwise well concealed Wolfsburg engineering art. This model stands out due to the detailed design of the 120 vehicle parts in the model. The opening doors, bonnet and boot give deep views into the intricately replicated interior of the zinc die cast body. Chrome front and rear lights as well as moving wheels and a steerable front axle make the 1:18 miniatures perfect reproductions of the original vehicle and prized collectors items.

26
–
27

Heart beat

The replica engines can barely be distinguished from the powerful originals.

Climb aboard

A detailed, reproduced vehicle interior with multi-colour imprinted fittings – it couldn't be more real.

Attention to detail

From the front grille to the brake discs – every component of the car body underlines the passion for precision.

Toy cars

These toy cars are specially made for children's hands and built for active play and fun. The high-quality finish of metal and plastic meets the very latest safety requirements so that safety in everyday play has top priority. Regardless of the respective scale, the miniatures are impressive because they are faithful to the original Volkswagen colours. The high recognition value ensures child-like joy, enabling you to immerse yourself into fun and games. All models are also fitted with working wheels, and some even have a pull-back mechanism or a remote control for fun on the move.

A real looker

The high-quality chrome rims match the sporty standard equipment in the original, down to the tiniest detail.

Impressive

From the grill all the way to the Volkswagen logo made of chrome – everything matches the original.

Perfection

The details of the faithfully reproduced rear are fantastic – from the imprinted rear lights all the way to the type indication.
